חוק הקיזוז - Stern-Dichter Law

Israeli Knesset Version of the Taylor Force Act

- Passed the Knesset on July 2, 2018
- Deducts amounts PA spends on convicted terrorist prisoners and families of martyrs from tax money Israel transfers to the PA
- The amount the PA spent on “pay to slay” in the previous year is calculated, and a corresponding deduction is spread over 12 months in the next year
- Deductions for prisoners began in February 2019 at approx. ILS 500 (\$145) million annually or ILS 42 (\$12) million monthly
- Deductions for martyr families began at the end of December 2019 at approx. ILS 150 (\$43) million annually or ILS 12.5 (\$3.6) million monthly
- Total annual deduction for 2018 terror payments is ILS 650 (\$174) million, spread out over 12 months
- Deduction currently represents approx. 6-8% of the yearly transfer tax income Israel collects for and sends to the PA

Explanatory Notes to the Bill

“..each year, the Palestinian Authority and the Palestinian Liberation Organization pay huge sums to individuals who were involved in terror activity against Israelis and their families, in the form of salaries and benefits to Palestinian terrorists incarcerated in Israeli prisons (during their incarceration and even after their release) and a stipend for Palestinian families whose relative was killed or wounded in the said activity. The very payment of these funds is essentially an expression of support for acts of terror.”

“This signifies that the State of Israel indirectly funds the said payments [which are funneled to terror], by transferring funds to the Palestinian Authority. There is no country that can agree to this. Consequently, it is proposed that each year, sums amounting to the funds supporting terror activists and their families be offset from the funds transferred to the Palestinian Authority during the previous year, pursuant to the said laws. This sum shall be determined in the annual report to be published by the Minister of Defense.”

https://m.knesset.gov.il/EN/News/PressReleases/pages/Pr13951_pg.aspx

MK Stern noted “[speaking] for myself and for many others, this law is a good reason to come to this building. This law has been promoted by all the members of this House, with the exception, unfortunately, of the Meretz faction and the Joint List. This law will save lives. We cannot [press rewind] on this terror which has been promoted with this money up until now, and we cannot restore the human lives that have been cut short, [but] the money can be returned. This law curbs terror and promotes peace simultaneously.”

87 MKs voted in favor of the bill

15 MKs voted against it

Country Reports on Terrorism 2021: Israel, West Bank, and Gaza

BUREAU OF COUNTERTERRORISM

*The 2019 Israeli Deduction Law requires the Ministry of Finance to withhold from its monthly tax revenue transfers to the Palestinian Authority (PA) the amounts Israel estimates the PA pays to Palestinians connected to terrorism, including to the families of terrorists who died in attacks. **The PA calls these prisoner and “martyr” payments, and argues they are social payments for families who have lost their primary breadwinner. The United States and Israel argue the payments incentivize and reward terrorism, particularly given the higher monthly payments the longer an individual remains imprisoned, which corresponds to more severe crimes.** The Jerusalem Post estimates that “martyr” payments total \$152.3 million annually.*
